**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code Stewart Township SchoolSITS# 32 BA**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school sitting on a combination of railroad ties and rocks for foundation. This school may have been moved to this location. The gable roof is covered with green metal sheeting and the soffits are open. There is no chimney. The building measures 30 1/2 feet north to south and 18 1/2 feet east to west.

The siding is horizontal metal sheeting with metal corner trim. There is no porch. The entry door is a newer, solid core door and it is locked. There are two newer double hung windows with storm/screens on the east wall, the west wall and the south wall. The interior walls are covered with wallboard and the ceiling is finished with beadboard. There are blackboards between the windows on both the west and east sides of the school as well as the inside wall of the entry. Inside the entry door there is a small foyer with doors to the left and right leading into coat rooms and then into the school room, no door straight ahead. There are old light fixtures inside the school and wiring outside indicating electricity. There is a stove at the north end of the room that is not in use. The flooring is tongue and groove hardwood. The metal siding and roof preserves this one room school.
