Complete a Page 3 for each feature.**1. Feature Description, Integrity, Eligibility:**

The feature is a large, one room prairie school sitting on a combination of poured concrete and concrete blocks foundation. There appears to be a basement or partial basement under the structure as evidenced by a small window on the east side. The offset gable roof is covered with asphalt shingles. There is not a chimney. The soffits are open. The building measures 32 1/2 feet east to west and 25 1/2 feet east to west. The front entry measures 12 feet north to south and 8 feet east to west. There is a small entry on the west side that measures 6 feet by 4 feet.

The siding on the school building is 10 inch composite siding with metal corner trim. The small shed on the west side is covered with 4 inch lap siding. There are windows on all sides of the school, two on the east, 2 on the west, 1 on the north and three on the south walls. All are newer, replacement double hung (1 over 1). There is a small fixed pane windows on the west side of the west entry and two small fixed pane windows on the east wall of the east side entry. There are concrete steps with a railing leading to the locked, solid core door.

Electricity is present. No information about the interior as the school was locked.
