PAGE 2—Feature Data

Field Code Peerless School

SITS# 32 BE

Complete one Page 2 for each architectural feature at the site.

Architectural Feature # 1

Construction Date Feature Type 9 Condition 7
Feature Date 2 Context 7 Plan Shape 5
Structural System 25 Primary Exterior 15 Style Other Style
Original Owner's Ethnicity Secondary Exterior Architect/Builder

Other Information:

Foundation Concrete Stories 1
Roof/Cornice Gable
Window Double hung
Dating Method(s): Maddock Historical Society professional estimate

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
Contributes to a potential district
No nomination potential
Will not contribute to a district
Potential district—feature would be a contributing element if other properties constitute a district
Thematic nomination potential
Component of a historic site or landscape
Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
Historical associations require further investigation

NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature DataField Code Peerless SchoolSITS# 32 BE**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a simple, wood framed one room prairie school sitting on a concrete foundation. The roof is covered with wood shake, in very good conditions. The peaks of the roof and the entry have metal capping with ball finials. The chimney was removed and there is a covered hole where it was at the west end of the peak. The soffits are closed with metal. The building measures 28 feet 8 inches east to west and 20 feet 8 inches north to south. The entry measures 10 feet east to west and 12 feet 8 inches north to south. This school was moved from South Viking Township to the present location.

The siding is horizontal metal lap with 4 inch metal corner trim. The windows are trimmed with metal as well. There are three newer 2 pane, double hung windows on both the north and south walls. The windows are protected by screens. There is a solid core security door, locked, on the east side which gives entry from a new wood porch. There is a two pane fixed transom window above the door. There is an older, multipanel door for entry into the main body of the school. The floor is original hardwood tongue and groove. The walls are a mixture of lathe and plaster and wall board. The ceiling is beadboard. There are blackboards on the west wall, either side of the chimney space. The blackboard wraps around to the west end of the south wall. There is wainscot in the main room of the school. No electricity. History says the school closed in 1931.

The school is furnished with desks, books, piano, pictures and more.
