Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
Contributes to a potential district
No nomination potential
Will not contribute to a district
Potential district—feature would be a contributing element if other properties constitute a district
Thematic nomination potential
Component of a historic site or landscape
Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Quarve #3SITS# 32 BE**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a wood framed prairie school on a foundation of concrete and wood. The roof of the school is covered with wood shakes with metal ridge cap and ball finials. There is a large cupola near the north end of the peak. The roof of the tower is covered with wood shakes and there is a flag pole at the peak. There is a bell in the tower. There is wood framing with more wood shakes finishing the bottom box of the cupola. At the south end of the peak is a red brick chimney. This school was moved off a basement at a former location and moved to this spot for preservation. The building measures 40 feet north to south and 20 feet 4 inches east to west.

There is a wide header under the eaves at the peak of both of ends of the main body of the school as well as the peak of the entry. The siding is 6 inch lap with 4 inch corner trim. A wide board is located at the bottom of the siding on all sides of the school. A modern, security door, locked, gives entry to the school from a wood porch. There are two small 4 pane, fixed windows on the west wall of the porch and one small three pane window on the east side. Other windows in the school are 6 large, multipane double hung windows with all glass intact. They have new storm windows on the outside.

The school has lathe and plaster walls and ceiling. Flooring is hardwood. There is wainscot on all walls in the entry but none in the main body of the school. Blackboard was on the east wall. There was electricity present in the school as there is a light fixture over the front door.
