Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature DataField Code Lake Ibsen #1SITS# 32 BE**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school sitting on a concrete foundation. The gable roof is covered with wood shakes with metal finials. There are also wood shakes on the entry on the south end of the building as well as the hip roofed shed at the north end. There are many spots on the roofs that are bare of any shakes. There is a hole where the chimney used to be. The soffits are open. The building measures 30 feet north to south and 16 feet east to west with the shed on the north side measuring 14 feet north to south by 8 feet east to west.

The siding begins with a wide trim board just under the soffit at the peak ends of the building. The remainder of the siding is 6 inch lap with 4 inch corner trim, no paint left. The window openings are mostly open with a bit of window framing left in one and covers on another one or two. There are two small windows on the south wall of the entry with a broken 6 panel wood door. The interior walls are a mix of lathe and plaster and wallboard. No blackboards or wainscot remaining and there is no evidence of electricity.
