Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data

Field Code Lake Ibsen Township #2SITS# 32 BE**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school sitting on a concrete foundation. The gable roof is covered with asphalt shingles with metal capping and finials. The soffits are open. there is a concrete block chimney at the peak of the roof at the west end. The building measures 24 1/2 feet west to east and 18 1/2 feet north to south. There is an outline on the east side of the school that shows where an entry used to be attached to the building.

There is a wide trim board running under the peak ends of the roof to begins the siding. The remainder of the siding is 6 inch wood lap with 4 inch corner trim. There is no door, just an opening. There are remnants of double hung windows on the north and south walls, 3 on each side. One is shuttered and the other 5 have framing with no glass. The walls and ceiling are finished with wallboard. There is a blackboard on 1/2 of the west wall. Light fixtures in the school would suggest the presence of electricity.
