**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code 1st Commission Dist. SchoolSITS# 32 BK**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a wood foundation. The gable roof is mostly covered with wood shakes, no metal capping remains but there is one finial at the south end. The chimney is also gone. The soffits are closed. The building measures 30 feet north to south and 18 feet east to west.

The siding is 6 inch lap under stucco, much of which is falling off the school. There is an outline on the south wall that would suggest an entry at some point. A piece of plywood has been nailed onto the 5 panel wood entry door, accessed by a concrete step. To the left of the door there is a filled in window opening which had stucco over it. On the east side of the school there is a bank of 6 double hung, two over two, windows with little framing and no glass. The two end windows are uncovered and the middle four have plywood over them. The interior walls of the school are wallboard with lots of nails. The ceiling is also wallboard, looks to have been tacked on right over the plaster because some wallboard along with plaster has fallen to the floor. The floor is tongue and groove hardwood. The school has wainscot and the west wall shows where the blackboard used to be. Conduit and outside wiring suggest electricity.
