**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Vanville TownshipSITS# 32 BK**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The features is a one room prairie school on a concrete foundation. The gable roof of the main body and the entry are covered with asphalt shingles. There is a flag pole at the east end of the peak of the school roof. The chimney is gone. The soffits are closed. The building measures 28 feet east to west by 16 feet north to south with the entry measuring 12 feet north to south and 8 feet east to west.

There is a wide trim board on the wall under the soffits at the peak ends of the school and entry. The remainder of the siding is 6 inch wood lap with 6 inch wood trim. There are attic vents on the wall near the peak at both the east and west ends. The entry appears to have been added at a later date with the exterior school wall finishing the school door side and the other three sides stud walls. There are two small windows on the north wall of the entry and one double hung, two over two, window on the south wall. Inside the school room, on the entry wall, are coat hooks to the north and a covered window opening to the south. There is a 5 panel wood door for entry into the main room of the school. Three double hung, two over two, windows are on the south wall and two more are on the north wall nearer the east end, all with glass. Blackboards are on the west wall and the west third of the north wall. The walls and ceiling are all covered with beadboard. The floor is tongue and groove hardwood. Light fixtures suggest electricity.
