**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code Fay Townhips Scool #2SITS# 32 BK**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a wood foundation. The gable roof has scraps of wood shingles on wood planking that has many holes. A half piece of metal capping has one finial at the south end of the roof. There is a stub of a red brick chimney at the north end of the peak of the roof. The soffits are closed. The building measures 30 feet north to south and 20 feet east to west.

There is a wide trim board on the wall under the soffits at the peak ends of the school and entry. The remainder of the siding is 6 inch wood lap with 6 inch wood trim, with much of the siding falling away. The interior walls and ceiling were covered with shiplap and the ceiling has mostly fallen in. The floor is tongue and groove hardwood. There are 3 window openings on the west wall and two more either side of the door opening and just remnants of framing remains. There is not glass left. The door is missing. The entire school is tilting to the east. No evidence of electricity.
