**Feature Preservation Recommendation(s) (Check all that apply):**

Individual nomination

Contributes to a potential district

No nomination potential

Will not contribute to a district

Potential district—feature would be a contributing element if other properties constitute a district

Thematic nomination potential

Component of a historic site or landscape

Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility

Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Taft Township SchoolSITS# 32 BL**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

This feature is a one room prairie school on a concrete foundation. The roofing material is asphalt shingles, really in pretty good shape with no holes other than the chimney opening. The chimney has fallen in or away from the school.

There is a header just under the roof at either peaked end. The siding appears to be 6 inch wood lap with 4 inch wood corner trim. Once again I did not get close to the school as there were bee hives in the school yard. There were several windows in the school, a bank of window openings can be seen on the east wall of the school, two more sets of 3 or 4 windows each on the north wall and more on the south, either side of the door opening. All framing and glass are gone from all the windows. There is not door. The interior of the school has been stripped out.

There was once electricity to the school as evidenced by conduit running up the wall on the south side of the school to the west of the door opening.
