**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Wilson Township SchoolSITS# 32 BL**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school sitting on a foundation of rocks and concrete. It has a more modern look in that it has unconventional siding and newer roof, chimney and windows. It is also locked, I believe it is used for a township meeting room. The building measures 18 1/2 feet north to south and 30 feet 8 inches east to west.

The room is covered with asphalt shingles with a cement block chimney at the west end of the peaked roof. The flag pole can still be seen at the east end of the roof.

The siding is wide, lap vinyl siding with vinyl corner caps. The eaves are closed with vinyl soffits. There is one window at the east end and another near the southeast end that could be original to the school. There are four more windows, two north and two south, that are newer and smaller than the original windows. They are double hung with screens. There is a locked, plywood door on the east side that leads into an entry. Looking into the windows there I could see another door leading into the main body of the school. The walls in this area were paneled. There is electricity to the building with wired, conduit and meter on the east wall.
