This feature is a one room prairie school sitting on a concrete foundation. It was moved to this farm for use as a shop. The hip roof was recently replaced with new asphalt shingles. The soffits are closed with beadboard. There is a stove pipe out the north slope of the roof. The building measures 30 feet north to south by 24 feet east to west.

The siding is a mixture of 6 inch wood lap siding on the east and north walls and masonite siding on the west and south walls. There is a small entry on the north side of the building. There is one small window on the north wall and another 4 pane fixed window on the west wall. The main building has two rectangular windows on the west wall and these will be replaced with newer windows soon. One original window is covered and located on the east wall of the entry. A large overhead door gives entry to the shop on the south wall. The tongue and groove hardwood remains on the floor. The walls are stripped. The ceiling is lathe and plaster. There were black boards on the north and east walls but they were removed. It is wired for electricity.
