DESCRIPTION/INTEGRITY/ELIGIBILITY

This house is located at 404 First Avenue, Scranton, on the east side of the avenue. It is said by a neighbor to have been a schoolhouse that was moved into town from the country at a date unknown, but prior to the 1950s. This is a wood frame building of 1 1/2-stories on a foundation of concrete blocks. The original portion has a hip roof. The roof is covered with wood shingles, the exterior with horizontal wood siding. In the middle of the south face of the roof is a shed dormer with two small windows. Centered directly under this is a front entry with a hip roof and a front door opening south. Built on to the east side of the house is an enclosed shed roof addition that functions as a back porch. It appears that original double-hung windows remain in all the original sections of the house, although on the west side, the single window has been ornamented by false shutters.

This schoolhouse probably was built in the 1910s and was quite substantial for a schoolhouse of that time. Its relocation takes it out of context, however, and therefore at this site it lacks associations or distinctions sufficient for National Register consideration.
