**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Oak Creek School #1SITS# 32 BU**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a poured concrete foundation. The gable roof is covered with wood shakes with metal capping and finials both ends. A concrete chimney is just north of the bell tower. The bell tower is at the south end of the roof and has lap siding on the bottom third, posts to hold up the roof and three cross pieces of lumber attached to these posts on all four sides. The pyramid roof at the top of the bell tower is also covered with wood shakes with a flap pole at the very top. The soffits are closed. The building measures 30 feet north to south and 18 feet east to west.

There is a wide trim board under the soffits on the peak ends of the roof. The remainder of the siding is 6 inch wood lap with 6 inch wood corner trim. Near the bottom of the siding is a wide trim board with water board. There six shuttered windows on the west side and two more on the south, either side of the door. The entry door is a two part locked wood door with a covered transom above it. This is reached by a wood porch built over concrete steps.

According to a sign on the front of the school this school is in Oak Creek District #4 School #1, the sign states that it was built in 1902 and closed in 1953. Restoration project was completed in 2003.
