**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Harvey Township School #2SITS# 32 CV**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a prairie school that most likely had more than one room. I have included this building as it served as a school early 1900's and then was later converted for use as a house. In conversation with area people they talk about one or two classrooms on the south side with a common area on the north with bathrooms at the west end of the building. There are two entries to the building, on the east there is a large entry with a south facing solid core locked door. On the west end of the building there is a combination storm door over another locked exterior door. The building is almost all brick with wood inserts many places. A patio door has been added to north wall near the east end. Windows are all newer, side sliders and double some double hung. A flag pole is south of the east entrance. The building measures 42 feet west to east (inclusive of both entries) and 24 feet north to south. They have electricity.
