**NDCRS ARCHITECTURAL SITE FORM  
PAGE 3—Feature Data**Field Code Elgin Township SchoolSITS# 32 CV**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school. This building was moved to this location and today is used for storage. The gable roof of the school is covered with failing asphalt shingles. There is a crumbling yellow brick chimney near the west end of the north slope. The building measures 30 feet east to west and 18 feet east to west.

This school is called the "Tin" school as tin sheeting was put over the wood lap. There are two double hung windows openings on the north side with little framing and there are also three windows on the south side, all covered. There is no door. The interior walls are covered with vertical wallboard sheets to the wainscot on the bottom 1/3. The ceiling is shiplap. The floor is tongue and groove hardwood. A blackboard covers the entire east wall. Light fixtures suggest electricity at some point in the past.

Information was submitted.
