Dating Method(s): Estimate

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature DataField Code East Alma Township SchoolSITS# 32 CV**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school. The sagging gable roof of the main body is partly covered with wood shakes. The crumbling shed roof of the entry is also covered with wood shakes. There is a yellow brick chimney at the peak near the north end of the school. The soffits are closed.

There is a wide trim board under the peak of the roof at the south end. The remainder of the siding is 6 inch lap with much of that falling away from the under planking. Corner trim is also falling away. There is a door opening on the south side of the entry, a window opening on the west side and a halfmoon window opening on the south wall of the school room above the entry. There are three double hung, two over two, windows on both the east and west walls of the school with some framing and no glass. Because of bee hives in the yard we did not see the interior.
