Field Code

SITS# 32

**Complete a Page 3 for each feature.**

**1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school moved to a farm yard to be used as a machine shop. The school sits on a concrete slab. The cross gabled roof of the school is covered with asphalt shingles. The chimney is gone. Soffits are closed on this building.

Wide trim boards run under the eaves at the peak ends of the school and entry as well as under the eaves of the bathroom addition. The siding is 6 inch wood lap with 4 inch corner trim. The windows in this school have been replaced. On the north side they put in two double hung windows with intact glass. On the northside the bathroom addition windows are double hung, glass intact. On the west side the entry/porch has vertical glass pane windows running from the north wall to the south wall of the entry. Above the windows in the entry is a fixed pane window in an arched top window opening. The entry door is 5 panel wood which leads to a second similar door giving access to the shop. The south wall of the main body of the shop was opened up to allow installation of an overhead garage door. Interior walls and ceiling are covered with beadboard. The have electricity. No blackboards or wainscot remain in the building.
