Roof/Cornice      Hip roof

Window      The windows that remain look to be double hung

Dating Method(s):      School records

**Feature Preservation Recommendation(s) (Check all that apply):**

Individual nomination

Contributes to a potential district

No nomination potential

Will not contribute to a district

Potential district—feature would be a contributing element if other properties constitute a district

Thematic nomination potential

Component of a historic site or landscape

Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility

Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**

Field Code

Superior Township School #1

SITS# 32 ED

**1. Feature Description, Integrity, Eligibility:**

This school building measures 34 feet east to west and 29 feet north to south. It is large building with wood lap siding and several windows. On the south wall there are 4 windows toward the east end and a large picture window in the space where 4 more windows were most likely located. The windows on the north side all have lumber filling in the opening. There are two more windows on the west side, one boarded up and the other with glass. On the east side there is a large garage door and to the right there is an entry door.

The roof has asphalt shingles and appears to be in pretty good shape.

Inside the building there is no evidence it was a school. It is a workshop today and there are tools, shelving and etc. on all the walls. Where there is original wall showing it appears to be lath and plaster.

Superior School District #19 was formed July 19, 1897 and was reorganized with New Rockford in 1962. This school was moved to this location.
