Complete one Page 3 for each architectural feature at the site.

1. Feature Description, Integrity, Eligibility:

The feature is a one room prairie school on a concrete slab. It was moved to this location for use as a shop/garage. The hip roof is covered with metal sheeting. There is no chimney. A horizontal chimney pipe is seen under the eaves on the east side. The soffits are closed.

A rake board begins the siding under the eaves on all sides. The remainder of the siding is 6 inch wood lap with 6 inch wood corner trim. The school has many double hung windows. One window is located near the south end on the west side. Another single window was located on the south end of the east side and the lower half of the window was removed to install a particle board entry door. Also on the south side are two sets of three windows with screens on the lower half. Three more similar windows are located on the north side. There is electricity to the building. No interior information.
