**Feature Preservation Recommendation(s) (Check all that apply):**

Individual nomination

Contributes to a potential district

No nomination potential

Will not contribute to a district

Potential district—feature would be a contributing element if other properties constitute a district

Thematic nomination potential

Component of a historic site or landscape

Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, and spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility

Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Glenfield Township SchoolSITS# 32 FO**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

This feature is a one room school building sitting on concrete and railroad foundation. The school measures 24 feet east to west and 16 feet 4 inches north to south with the shed measuring 12 feet 4 inches north south and 6 feet east to west. The material on the roof is asphalt shingles on both the gable section and shed section of the roof. There is a short red and yellow brick chimney at the peak of the roof near the east end of the building. 8 inch wide trim boards run along both ends just under the roof overhang. The soffits are open on both sides. The siding is 6 inch wood lap with 4 inch wood corner trim. There is an entry at the west end of the building as well as a door on the opposite side. The larger door gives access to the building for storage of large equipment. A concrete step leads into the entry. The entry door is a simple, hollow core wood door. There are two covered windows in the entry. The interior of the school has tongue and groove hardwood floors with lathe and plaster walls and wallboard on the ceiling. There is a black board on the north wall. On the south side there is a bank of windows, all covered. Wires at the east end of the school would suggest that electricity was present at some point. I did not see if there were lights inside the school or not. The school was moved to the back yard of the high school in Glenfield for storage.
