**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code Pleasant View Twsp SchoolSITS# 32 GF**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a concrete basement. The gable roof of the entry is covered with asphalt shingles and the main body of the school is covered with wood shakes, many missing. There is a large red brick chimney at the peak at the east end. The soffits are closed. The building measures 36 feet west to east and 18 feet north to south. The entry is 10 by 12. There is a small porch roof, supported by brackets, over a second door at the southwest corner. This part of roof also has wood shakes.

There is a wide trim board under the soffits at the peak ends of the school. The siding is 6 inch wood lap with 6 inch corner trim. Concrete steps lead to both doors. The south 5 panel wood is locked as is the door at the southwest corner. On the north side of the school there are three, four over four, large windows with two more smaller ones further to the west. Three more similar windows are on the south side, all have intact glass. One of the south windows is covered. There is a single covered window on the west side. The interior walls and ceiling are wallboard. No wainscot or blackboards. The building is used for storage and is full.
