NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature DataField Code Chester Town HallSITS# 32 GF**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on concrete. The gable roof of both the entry and the main body are covered with asphalt shingles with metal capping and finials. There is a concrete block chimney on the west slope near the north end. The soffits are closed. The school measures 24 feet south to north and 16 feet east to west.

There is a wide trim board under the soffits at the peak ends of the school. The siding is 6 inch wood lap with 6 inch corner trim. There is a covered window on the north side of the entry and a 5 panel wood entry door to the east. The school has three double hung windows on both the east and west side, some covered and the we saw intact glass. A dog in the yard kept me from getting out to view the building closer.
