**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM****PAGE 3—Feature Data**Field Code SITS# 32 **Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a poured concrete foundation. The school was originally located across the road to the southwest. The roof of the school and entry are covered with metal sheeting. A red brick chimney sits at the north end of the school at the peak of the roof. The soffits are closed. The building measures 16 feet east to west and 24 feet north to south with an 8 by 6 foot entry.

A wide trim board runs under the eaves at the peak ends of the school. The siding is 6 inch wood lap with 4 inch wood corner trim. At the bottom of the siding is skirting board with water table. There are 3, two over two, double hung windows on either side of the school, glass intact. One of the window openings on the east side had been filled in with a piece of plywood. Another small opening on the east side of the entry was likely a fuel door. There is a 5 panel door leading into the entry from a concrete steps. The entry walls are open to the outside walls. The interior walls and ceiling of the school are finished with wallboard/sheetrock. The lower third of the walls have beadboard wainscot. The floor is tongue and groove hardwood. Hanging light fixtures with white globes indicate electricity was present. There are blackboard along the entire north wall. Either side of the 4 panel wood school room door there are coat hooks with shelves for lunch boxes.
