Architectural Feature # 1

Construction Date \_\_\_\_\_ Feature Type 9 Condition 6  
Feature Date 7 Context 7 Plan Shape 2  
Structural System 25 Primary Exterior 1 Style Other Style  
Original Owner's Ethnicity \_\_\_\_\_ Secondary Exterior \_\_\_\_\_ Architect/Builder \_\_\_\_\_

Other Information:

Style is a small, wood framed local school building that was last used as a local township hall

Foundation Concrete Stories 1  
Window Windows covered with plywood, most are intact. Openings appear intact  
Roof/Cornice Gable/cornice is box style with plan rough boards  
Dating Method(s): Estimated date range of 1940s

**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM****PAGE 3—Feature Data**Field Code KLJ-GOV-201SITS# 32 GV**1. Feature Description, Integrity, Eligibility:**

The feature consists of an abandoned school that was last used as a local township hall. The building has two components--the main component, and a vestibule on the south side. A sign on the north side of the building reads: "WESTERHEIM HALL."

The vestibule measures approximately 8 feet in width and 6 feet in depth, with a door on the south side. The door has a window, but no windows are located on the east and west sides of the vestibule. The roof of the vestibule is of gable-style, with boxed cornice and wood shingles.

The main component measures approximately 28 feet north-south by 20 feet east-west. The roof is of gable style with boxed cornice, and is covered with wood shingles. A chimney extends above the roof at the north peak. The west side has two windows, and the east side has four. All of the windows are covered with plywood.

The building appears to retain the integrity of design, location, setting, materials, workmanship, feeling, and association.

The eligibility of the building is currently unknown, although it may be eligible as a thematic nomination. Further research by a qualified architectural historian would be recommended if the building is to be impacted.

## 2. Owner's Contact Information:

Unknown

## 3. Access (to rural areas):

From the I-94 exit for Camel Hump Dam drive west for 0.5 miles, north for 5 miles, and east for 1 mile. From this point continue north and east on the gravel county road for 6.1 miles. The site is located to the south of the road.

4. Site Area (ft<sup>2</sup>): 2,0005. *Site* Description:

The site consists of an abandoned school house that was last used as a local township hall. The site is located in a rural setting on an upland flat bounded to the west by a wide, low area, and to the east by a higher hill. The upland flat extends to the south and north. A maintained county road is located to the north of the site, and the surrounding area is used for cultivation. The main building has an overall measurement of approximately 28 feet north-south, by 20 feet east-west, with a vestibule on the south side, which measures about 8 feet east-west by 6 feet north-south.

**NDCRS ARCHITECTURAL SITE FORM  
PAGE 5—SITE DESCRIPTION**Field Code KLJ-GOV-201SITS# 32 GV**6. Summary of All Site Features & Evaluation of Site Significance:**

The site consists of one feature, an abandoned school that was last used for a township hall. The building consists of a vestibule and the main components. The site area was set at 40 feet east-west by 50 feet north-south.

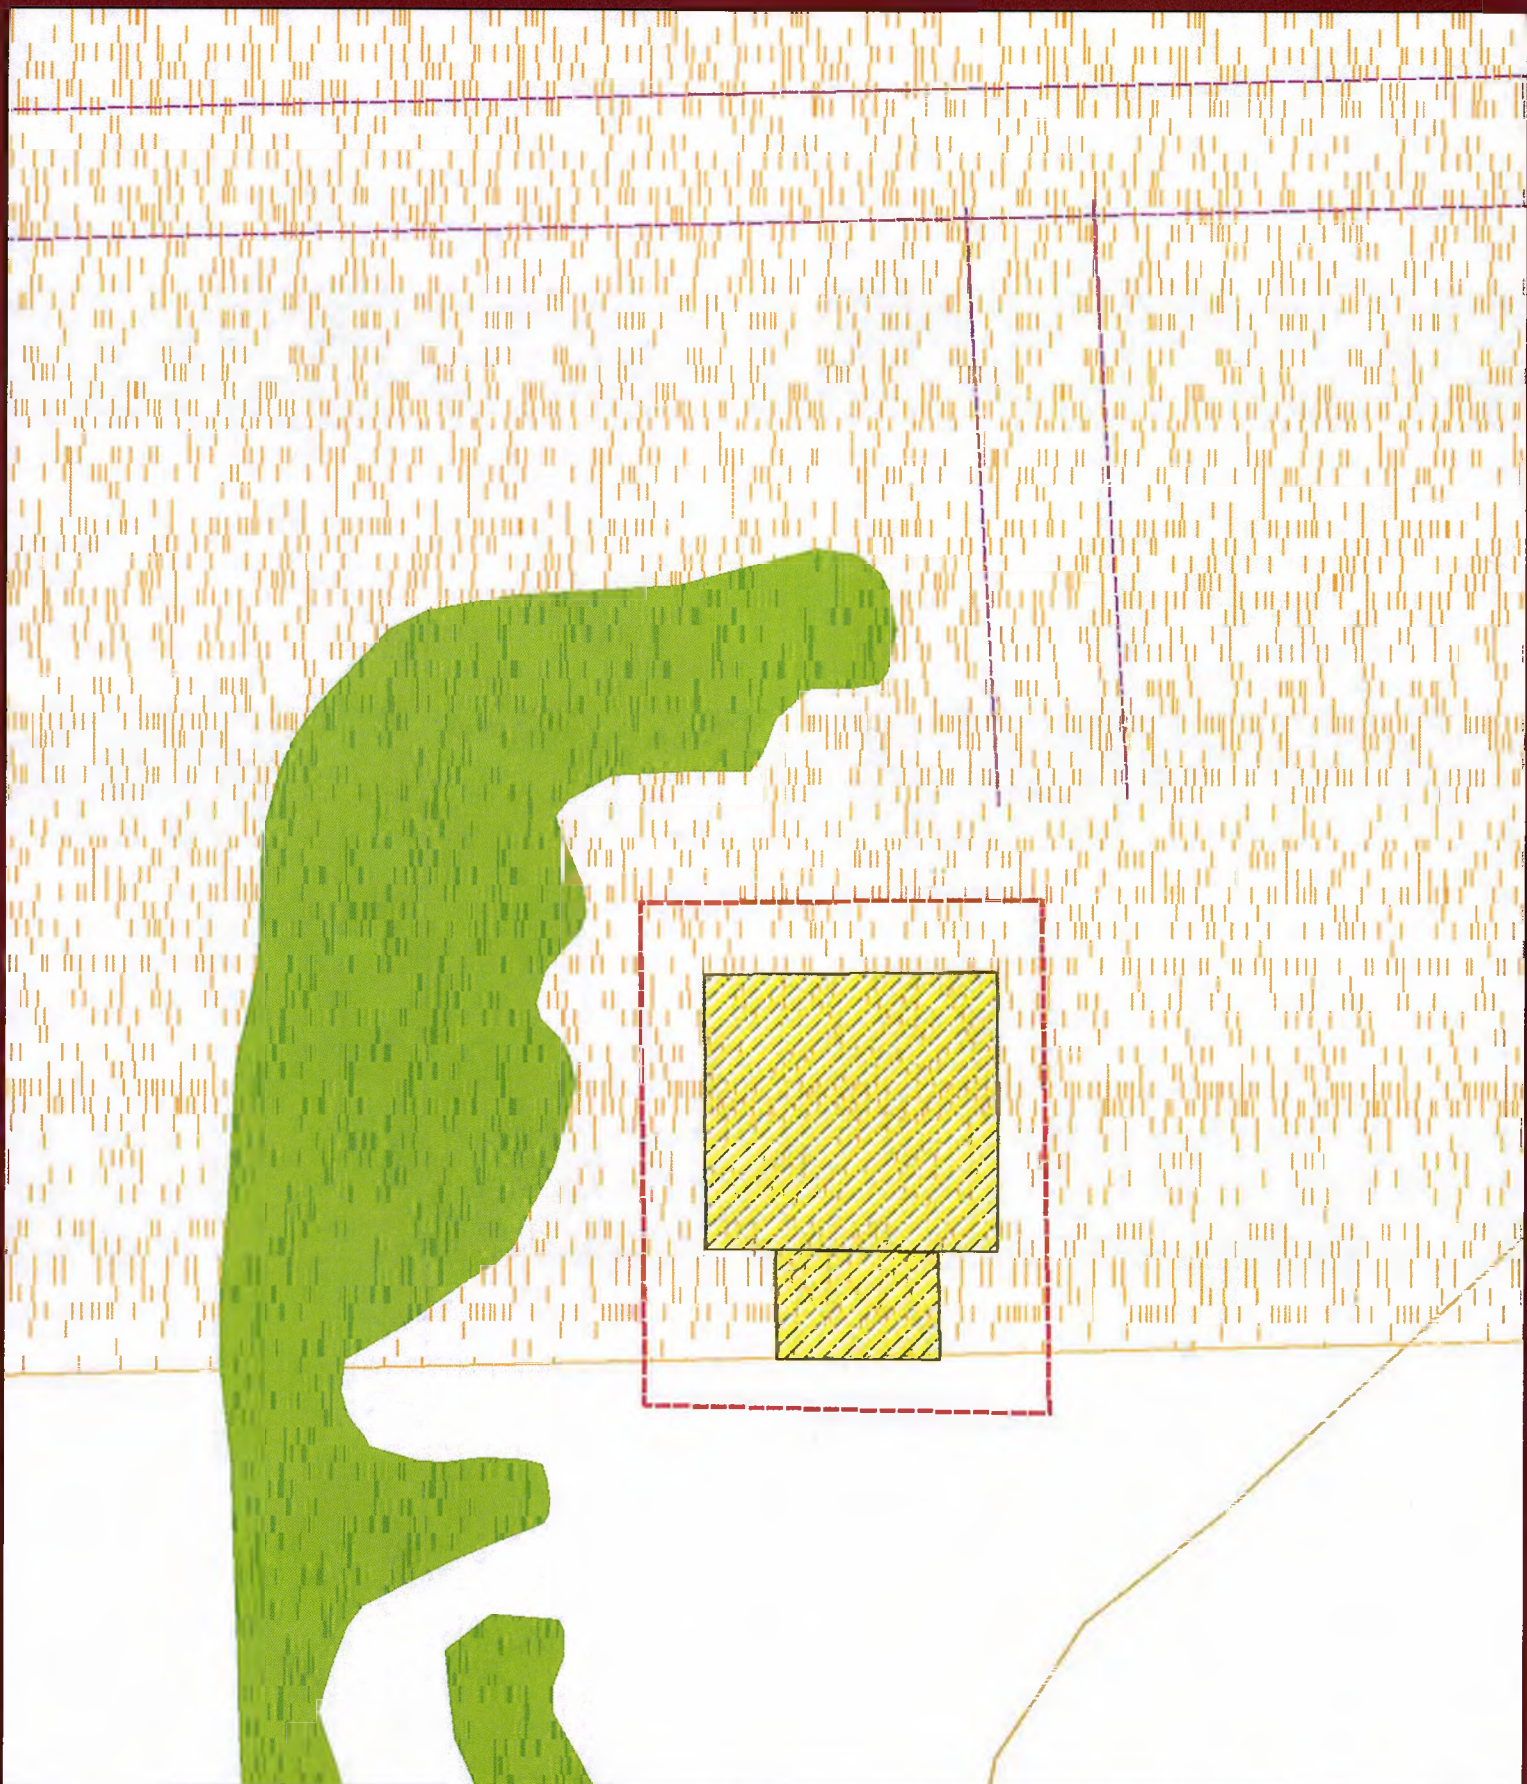

The building appears to retain good integrity, and is currently unevaluated for the National Register of Historic Places. It is possible that the building would be eligible under a thematic nomination. Further research by a qualified architectural historian is recommended prior to any impact from federally-aided projects.

**7. References/Comments:**

It is the understanding of Kadrmas, Lee & Jackson, Inc., that the site will be avoided by the project.
