Window Double hung, most gone

Dating Method(s): School History

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code Fischer SchoolSITS# 32 GV**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a concrete foundation. The gable roof othe the school is mostly covered with ribbed metal sheeting. On the west slope of the roof half is missing, apparently blown off in a storm. The soffits are closed. There is not chimney.

There is a wide trim board on the exterior wall under the soffits on the peak ends of the roof. The remaining siding is 6 inch wood lap with 6 inch wood corner trim. The south side of the school has been opened to install two over head doors for access for storage and a shop. The floor in the building is concrete. The walls are lathe and plaster. The ceiling has wallboard over lathe and plaster and much of it is falling away. There are three covered window openings on the east side. On the west side the north most window opening was converted to a door, the middle window is shuttered and the southmost window opening has no glass and some framing. There is conduit and fixtures suggesting electricity.

This school was built in 1913 and operated until 1939.
