**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code Lapla SchoolSITS# 32 GV**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a new concrete foundation. The gable roof has wood shakes with metal capping and finials. Remnants of a bell tower are on the west slope of the roof. The soffits are closed. There is a metal pipe chimney on the east slope and no other chimney is visible.

The siding is ribbed metal sheeting and there is a large overhead door on the south side to give entry to the building that is now used as a shop. In the style of this area a porch is cut out of the southwest corner of the building with a corner post for support. There is a new solid core door for entry. The interior of the building has wallboard panels on the ceiling and walls. There is wainscot on all the walls with two blackboard on the north wall. The framing and glass of the original windows is retained on the inside of the building, three on the east wall and two on the west wall with the middle windows sheeted over from the outside. The floor is all concrete. Light fixtures suggest electricity.
