**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Black Butte School #3SITS# 32 HT**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school with metal roofing and mostly metal siding. The peak of the school at the south end shows lap siding above the metal with a side trim board just under the peak. At the rear of the school the shed still shows 6 inch lap siding with 6 inch corner trim boards. The shed roof is also covered with metal. The building measures 33 feet north to south with an additional 8 feet for the shed on the north and 20 feet 4 inches east to west. There are two small windows on both the east and west sides near the south end of the school, light for the entry. Another two windows in the shed, both without glass but some of the frame is intact. There is no porch. The entry door is 5 horizontal panel wood door with an old style metal door knob. The entry has coat hooks on the wall directly inside the door. There are two 4 vertical panel doors for entry to the main body of the school, either side of the coat hooks. The floor in the building is tongue and groove hardwood. The walls and ceiling are covered with wall board and there is wainscoting. Some of the ceiling panels have fallen in. There are light fixtures at the ceiling indicating electricity. Inside the main body of the school the east wall has a bank of 7 double hung 4 pane windows with most of the glass intact. There is another similar window on the west wall just inside the door, next to the blackboard that runs the rest of the west wall and there are also blackboards on the north wall as well as between the two doors that enter into the main room. There is a stove at the north end but no outlet. The shed is used for junk storage. This school was in Horsewill District #4.
