**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Merrill School #2SITS# 32 HT**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school sitting inside a fenced pasture. Observation was from the road. There are shakes on the roof with patched spots on both sides, some of the patch is where the chimney used to be. There is 6 inch lap siding with no paint left. The corners are covered with metal corner pieces. There is a wide trim trim board just under the roof overhang at both of the peaked ends of the roof. There is also a metal ridge cap running the length of the building. There is a piece of corrugated metal in the door opening to the south, more corrugated metal covers all 6 windows on the east side. There is another door on the north side of the building, this one has a door knob. There is concrete footings that extend north of the school, perhaps there was a shed at the back at some point.
