PAGE 3—Feature DataField Code _____ SITS# 32 KD _____**1. Feature Description, Integrity, Eligibility:**

Tanner #2 was originally on 43rd Ave SE near a farmstead but all that remains there is the original foundation. It was later moved to the corner of 45th Ave SE and 43rd St SE to serve as a school there. After the school reorganization in 1958, this school was moved north approximately .5 mile to serve as a granary at a farmstead. A shed addition was placed on the east side of the building and an interior wall was constructed. The window openings were boarded but openings revealed that the beadboard is still on the walls and ceiling. According to Haadem, this beadboard was always there and the school looked much as he remembered it. Due to the large addition, interior change, and new function and setting, this property is not eligible for the National Register of Historic Places.
