Barton School #8

1. Feature Description, Integrity, Eligibility:

This prairie school was moved to the present location from north of Robinson, Merkel South Township, Section 5. It was called Barton School and I was told number 8 but that might have referred to the number of the school district. It was moved and used for grain storage.

It is a simple school with wood lap siding. The corners are protected by 1x4 lumber with quarter round. There is wood covering all the windows in the main body of the school, I did not go inside to see if any of the window framing or glass is still there.

There is a small entry on the south side of the school and there are two small windows, one east the other west. The ceiling of the entry is wood look panel painted white. The door into the school is of solid wood as is the door into the main part of the school.

The roofing on the main body of the building is of wood shakes, what there are left at this point. I looked inside the school through open doors and could see holes in the roof. There is absolutely no ceiling material left, just open rafters. The roof of the porch is asphalt shingles on wood roof.

A former student told me it closed about 1956.
