Field Code First Robinson School

SITS# 32 **KD** 172

Complete one Page 2 for each architectural feature at the site.

Architectural Feature # 1

Construction Date _____

Feature Date 1900-1915

Structural System Wood Frame

Original Owner's Ethnicity _____

Feature Type 9 - School; Church school

Context Education

Primary Exterior Wood, Horizontal Siding

Secondary Exterior Composition Board

Condition Good

Plan Shape Rectangular

Style Other Style

Architect/Builder _____

Foundation Poured concrete basement Stories 1.0

Roof/Cornice Hip

Window New, glass

Dating Method(s) School history

Miscellaneous Information _____

Feature Preservation Recommendation(s) (Check all that apply):

Individual nomination

Contributes to a potential district

No nomination potential

Will not contribute to a district

Potential district—feature would be a contributing element if other properties constitute a district

Thematic nomination potential

Component of a historic site or landscape

Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, and spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility

Historical associations require further investigation

NDCRS ARCHITECTURAL FORM**PAGE 3 – Feature Data****Field Code** First Robinson School**SITS#** 32 **KD** 172**Complete one Page 3 for each architectural feature at the site.****1. Feature Description, Integrity, Eligibility:**

The feature is a small town school on a poured concrete basement. I suspect it was a two room school when opened. The hip roof is covered with asphalt shingles. Two additions to the building are located on the east side, a entry with a half hip roof and a garage with a shed roof, all covered with asphalt shingles. There are eaves troughs on all the roof edges of the entry and house and the soffits are closed. There is a large redbrick chimney on the west slope of the roof.

The siding of the main part of the building is 6 inch wood lap with 6 inch wood corner trim. The garage and east entry siding is masonite. The front (west) of the house has a newer door in what was likely the entry to the school. When built, the school had double doors for entry. There were/are two windows, one to either side of the entry, that are replacement windows that resemble the earlier double hung windows. A picture window and small double hung window is located on the south wall. Two more side sliding windows are located on the north wall. The east entry has a newer door and the garage has an overhead door at the north end with two small windows facing east.

No information about the interior.

2. Owner's Contact Information:**Recorded By:** Kathy Wilner **Date Recorded:** 06/03/2021
