NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature DataField Code Greenville Township SchoolSITS# 32 LM**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a wood framed, one room prairie school on a poured concrete foundation. The roof is covered with wood shakes with metal capping on the top and all four hips. There is a chimney, bottom bricks are gold and the top are red, at the top of the east slope of the roof. A dormer faces east and the windows is missing any framing or glass.

There is a wide header under the eaves on all four side. Siding is 6 inch lap with 4 inch corner trim. The east side has a piece of plywood over the door opening and the transom above appears to be open. There is a bank of 8 windows facing south, some framing would indicate they were double hung. Most of the glass and framing is gone. Wire on the building indicates the presence of electricity at some point.

I did not go inside this building.
