**Feature Preservation Recommendation(s) (Check all that apply):**

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Hills Township School #3SITS# 32 LO**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on railroad ties. The gable roof is covered with asphalt shingles. There is a short concrete chimney at the north end of the peak. The soffits are closed. The building measures 30 1/2 feet north to south and 16 1/2 feet east to west.

The siding is metal sheeting on three side with steel 6 inch siding on the south side of the school and entry. There original concrete steps with pipe railing were moved to this location when the school was moved. There is a newer solid core entry door that is kept locked. The walls of the entry as well as the main body of the school are covered with sound proofing wallboard panels. There is no wainscot. The ceiling is wallboard. The windows are double hung, two over two, with all glass intact. There are three windows on the east wall and two more on the north side. A smaller double hung window is located on the west wall of the entry. Blackboards are on the south half of the west wall as well as to either side of the door from the entry. Light fixtures suggest the presence of electricity.
