This feature, a simple prairie school with 6 inch lap siding, showing fresh paint, and an asphalt roof sits at a farm site. The school was moved from Villard Township in McHenry County in the year 2000, it was originally located in Sec 29. Villard School #4 has been completely refurbished and furnished. Corners on the building are trimmed with 6 inch boards and 8 inch boards trim the tops of all the outside walls. There is a wood entry door with a small transom window. To either side of the door are windows facing north, both of those windows were replaced. Three windows on the east side and three more on the south side are original, double hung windows. The steps and porch are all new composite material.

The school measures 28 feet north to south and 24 feet 4 inches east to west. The entry is painted wall board with wainscoting on the lower 1/3. As you step inside the main body of the school to the immediate right (on the north wall) is a small room, with white painted walls and wainscoting. There are coat hooks on the wall and a counter with a wash basin on it. To the immediate left (also on the north wall) is a small library, also with wainscoting and walls painted white. All three 5 panel doors along the north wall of the main body of the school (coat room, entry & library) are original to the school. The trim is wide pine boards stained/painted to match the brown colored doors. In the main body of the school there is wainscoting on all walls and this is brown. The walls and ceiling are wall board, walls are painted green and the ceiling is painted white. The hardwood floor has been refinished and it still shows all the wear and tear of years of use. The blackboard extends across the entire west wall of the school and is framed at the top and side with wide, brown colored boards. Wainscoting runs underneath the entire length of the blackboard.

This is a bright, furnished school with many books, desks and other early school furnishings. The school closed in 1959.
