**Feature Preservation Recommendation(s) (Check all that apply):**

Individual nomination

Contributes to a potential district

No nomination potential

Will not contribute to a district

Potential district—feature would be a contributing element if other properties constitute a district

Thematic nomination potential

Component of a historic site or landscape

Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility

Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM**  
**PAGE 3—Feature Data**Field Code Round Lake Township SchoolSITS# 32 MH**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school sitting on a foundation of concrete block and rocks. The gable roof of the school and the shed roof of the south addition are covered with metal sheeting. There is a red brick chimney near the north end of the roof, at the peak. Soffits are closed. The building measures 30 feet north to south and 16 1/2 feet east to west.

The siding begins with a wide, trim board at the peak just under the soffits at both the north and south ends of the school. The remainder of the siding is 6 inch wood lap with 4 inch corner trim. The entry door, located on the east end of that addition, is wood panel and it is locked. There is a concrete pad at the approach to the door. There are windows on both the west and east sides, double hung (2 over 2) with some glass. Three of the four windows are shuttered. A covered opening on the west side of the addition may have been fuel access, on the south side of the addition a filled in area near the west end may have been a window or perhaps the door. The interior walls are yellow painted paneling with beadboard wainscot at the lower part of the walls. There are blackboards between the windows on the east and west walls as well as on the north wall. The floor is tongue and groove hardwood. The ceiling is finished with ceiling tiles. There is a electric light fixture over the entry door as well as light fixtures inside the school suggesting electricity.

Off the northwest corner of the school is an outhouse.
