PRESERVATION RECOMMENDATION (Check all that apply):

- 1) Individual nomination
- 2) Contributes to a potential district
- 3) No nomination potential
- 4) Will not contribute to district
- 5) Potential district not known at this time: feature would be a contributing element if neighboring properties constitute a district
- 6) Thematic nomination potential
- 7) Component of historic site/landscape
- 8) Feature has an important physical, spatial, functional, historic or architectural relationship to the site/complex/farmstead
- 9) Moved: A) Relocation occurred within historic period. B) Recreates original site, orientation, landscape and spatial relationships. C) Compatible in context with neighboring structures. D) Relocation has damaged eligibility.
- 10) Request comparative study of neighboring properties
- 11) Historical associations require further investigation

DESCRIPTION/INTEGRITY/ELIGIBILITY:

Feature 1 is the old Conkling school building, identified as a large maintenance building with garage and office/shop areas in 1997. The school building was located in Conkling School District #12, and was named after Rosco Conkling. There is a small, enclosed entryway on the north elevation and two large overhead doors and a panel door on the south elevation. The building has an irregular plan, and inside are pew-style benches. The south end area is 32 x 36 feet, and the rest of the building area is 25 x 64 feet. The two areas have separate gable roofs.

The entire building is on a raised concrete foundation. Siding is horizontal wood clapboards. The interior walls in the shop area are covered with fiberboard. The roof is covered with composition rolled roofing. Most of the windows have been broken out but those that remain are double hung, 8/8.

FEATURE DATA

OWNER'S NAME, ADDRESS, PHONE #:

PROJECT TITLE:

REPORT TITLE: Results of Class II and Class III Cultural Resource Inventories for Upgrades to Telecommunication Lines: The Washburn Exchange

SITE AREA: 285,000 sq ft

ACCESS: From North Dakota 200 on the north side of Washburn, go west on County Road 17 for 7.5 miles. Turn north and go 1.75 miles. Turn west and go 2.7 miles. The site is on the south side of the road.

DESCRIPTION: Three standing buildings, a windmill, three concrete foundations, a concrete cistern, a depression, and five recent granary foundations were recorded at this site. The site is abandoned.

Historic Information: Records on file at the McLean County Register of Deeds Office indicates that Alfred Svenson received a patent from the United States for land containing the site on May 5, 1904. Anna Kristina Johanson, Svenson's sister, inherited the property on February 21, 1921. Johanson sold the property to George Swanson on November 30, 1925. Victor Leidholm purchased the land on January 14, 1926. Today Lloyd Leidholm owns the property.

NDCRS ARCHITECTURAL SITE FORM

Page 7

Field Code: None

SITS #: 32ML891

SUMMARY OF SITE FEATURES AND EVALUATION OF SIGNIFICANCE:

Feature 1 – Conkling school building

Feature 3 – House

Feature 2 – Garage

Feature 4 – Windmill

Statement of Integrity:

The site is reflective of a mid-1900s farm outbuildings and schoolhouse; however, six of the structures associated with the property have either been torn down or have been removed from the property. The overall condition and integrity of the site is poor to fair.

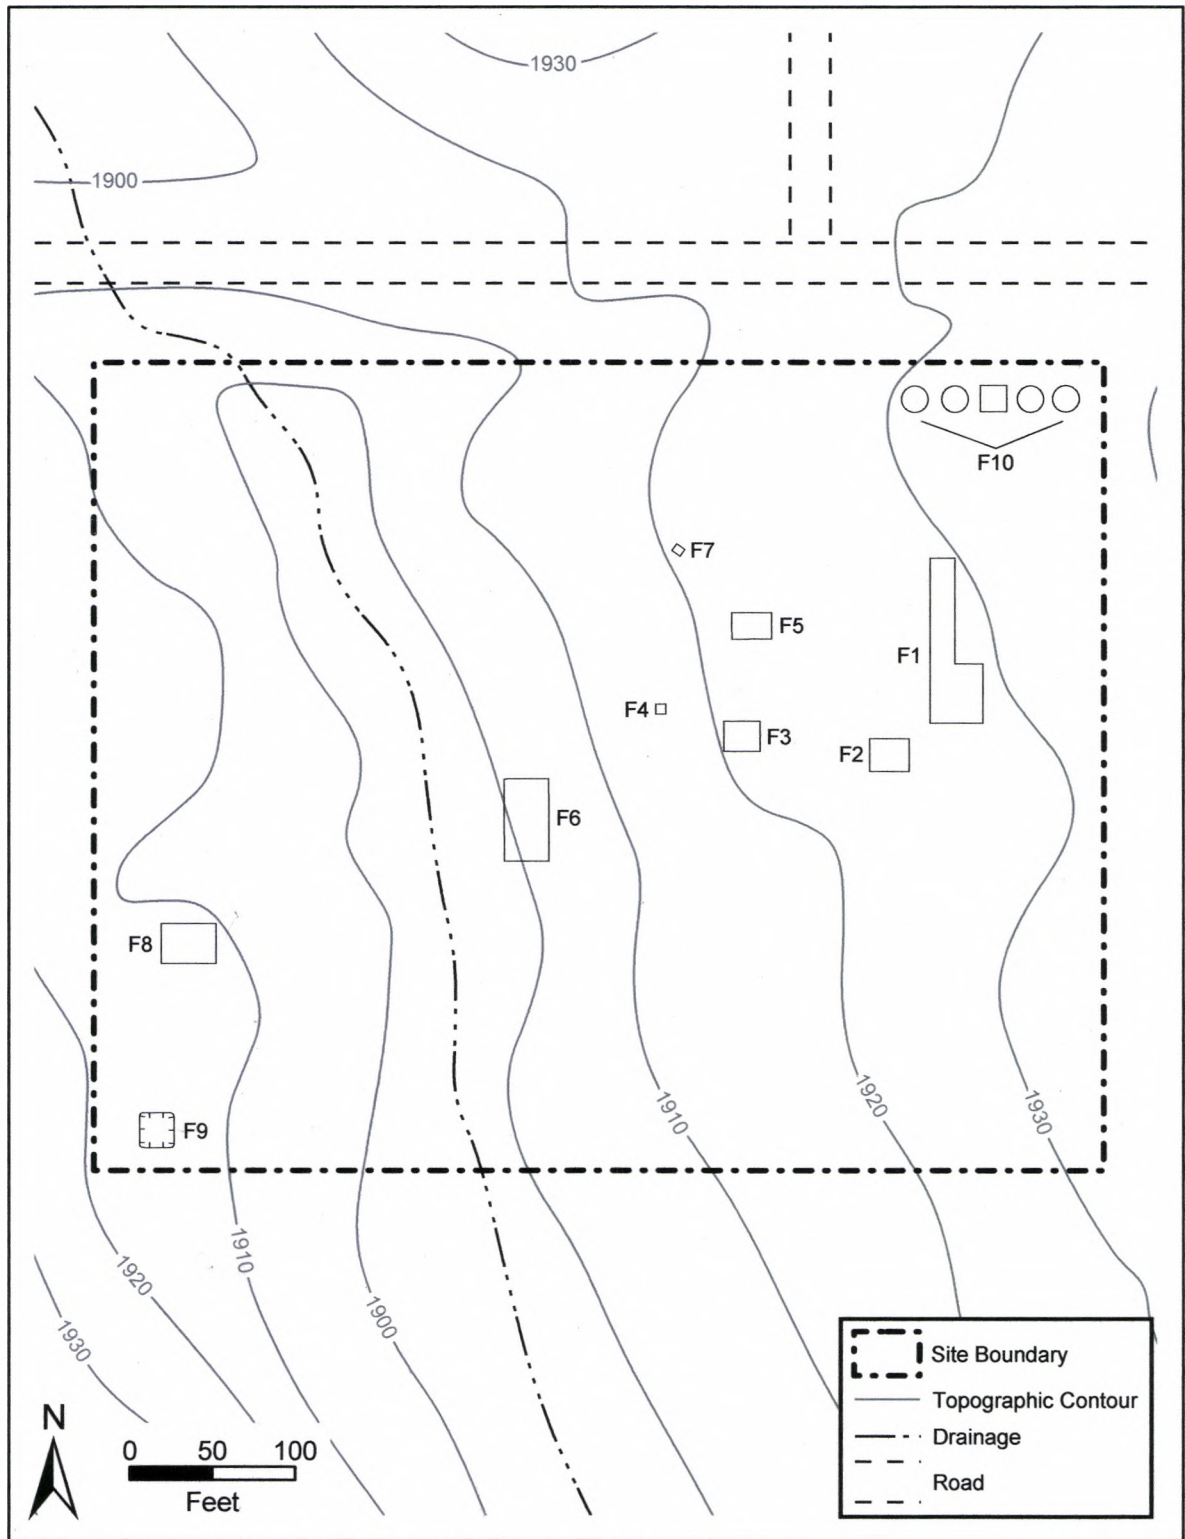

Statement of Significance:

The site is recommended not eligible for listing to the National Register of Historic Places (NRHP) under any of the established criteria. Most of the structures associated with the property have either been torn down or removed from the property. The four standing structures (Features 1-4) are unable to reflect any historic association and is recommended not eligible under Criterion A. The site is not associated with any person of local, regional, state, or national importance, and is recommended not eligible under Criterion B. The features at the site are not representative of a unique architectural style or method of construction and recommended not eligible under Criterion C. The site would not likely provide further information through archaeological investigation of the historic features and is recommended not eligible under Criterion D. No further work is recommended at the site.

DESCRIPTION/INTEGRITY/ELIGIBILITY Feature 1 is a large maintenance building with a garage area at the south end and office/shop space at the north end. There is a small enclosed entryway on the north elevation and two large overhead garage doors and a panel door on the south elevation. The building has an irregular plan. The garage area is 32-by-36 feet. The main shop area is 15-by-64 feet. There is a 12-by-12 addition on the east side of the shop area. The garage and shop areas have separate gable roofs. The addition to the shop area has a shed roof.

The entire building is on a raised concrete foundation. Siding is horizontal wood clapboards. The interior walls in the shop area are covered with fiber board. The roof is covered with composition rolled roofing. Most of the windows have been broken out but those that remain are double hung, 8/8.

This building has an unusual appearance to be part of a farmstead. Although it cannot be substantiated by the historic records consulted, it seems likely that Feature 1 was moved to its present location from some commercial or industrial area. Likely candidates for the building's original location are nearby coal mines and the Garrison Dam construction site near Riverdale (Feature 1 has the general characteristics of World War II era temporary military buildings). The building is in a poor state of repair and does not appear to have any significant architectural characteristics. It is not believed to be eligible for nomination to the National Register of Historic Places.

Urban Legal Description n/a

 SEE CONTINUATION SHEET

ARCHITECTURAL SITE FORM

Page 3

Field Code 970916c-6

SITS No. _____

OWNER'S NAME, ADDRESS, PHONE # Lloyd Leidholm, address unknown.

PROJECT TITLE 970919c

REPORT TITLE Results of Class II and Class III Cultural Resource Inventories for Upgrades to Telecommunication Lines: The Washburn Exchange.

SITE AREA (in square feet) 87,940

ACCESS From North Dakota 200 on the north side of Washburn, go west on County Road 17 for 7.5 miles. Turn north and go 1.75 miles. Turn west and go 2.7 miles. The site is on the south side of the road.

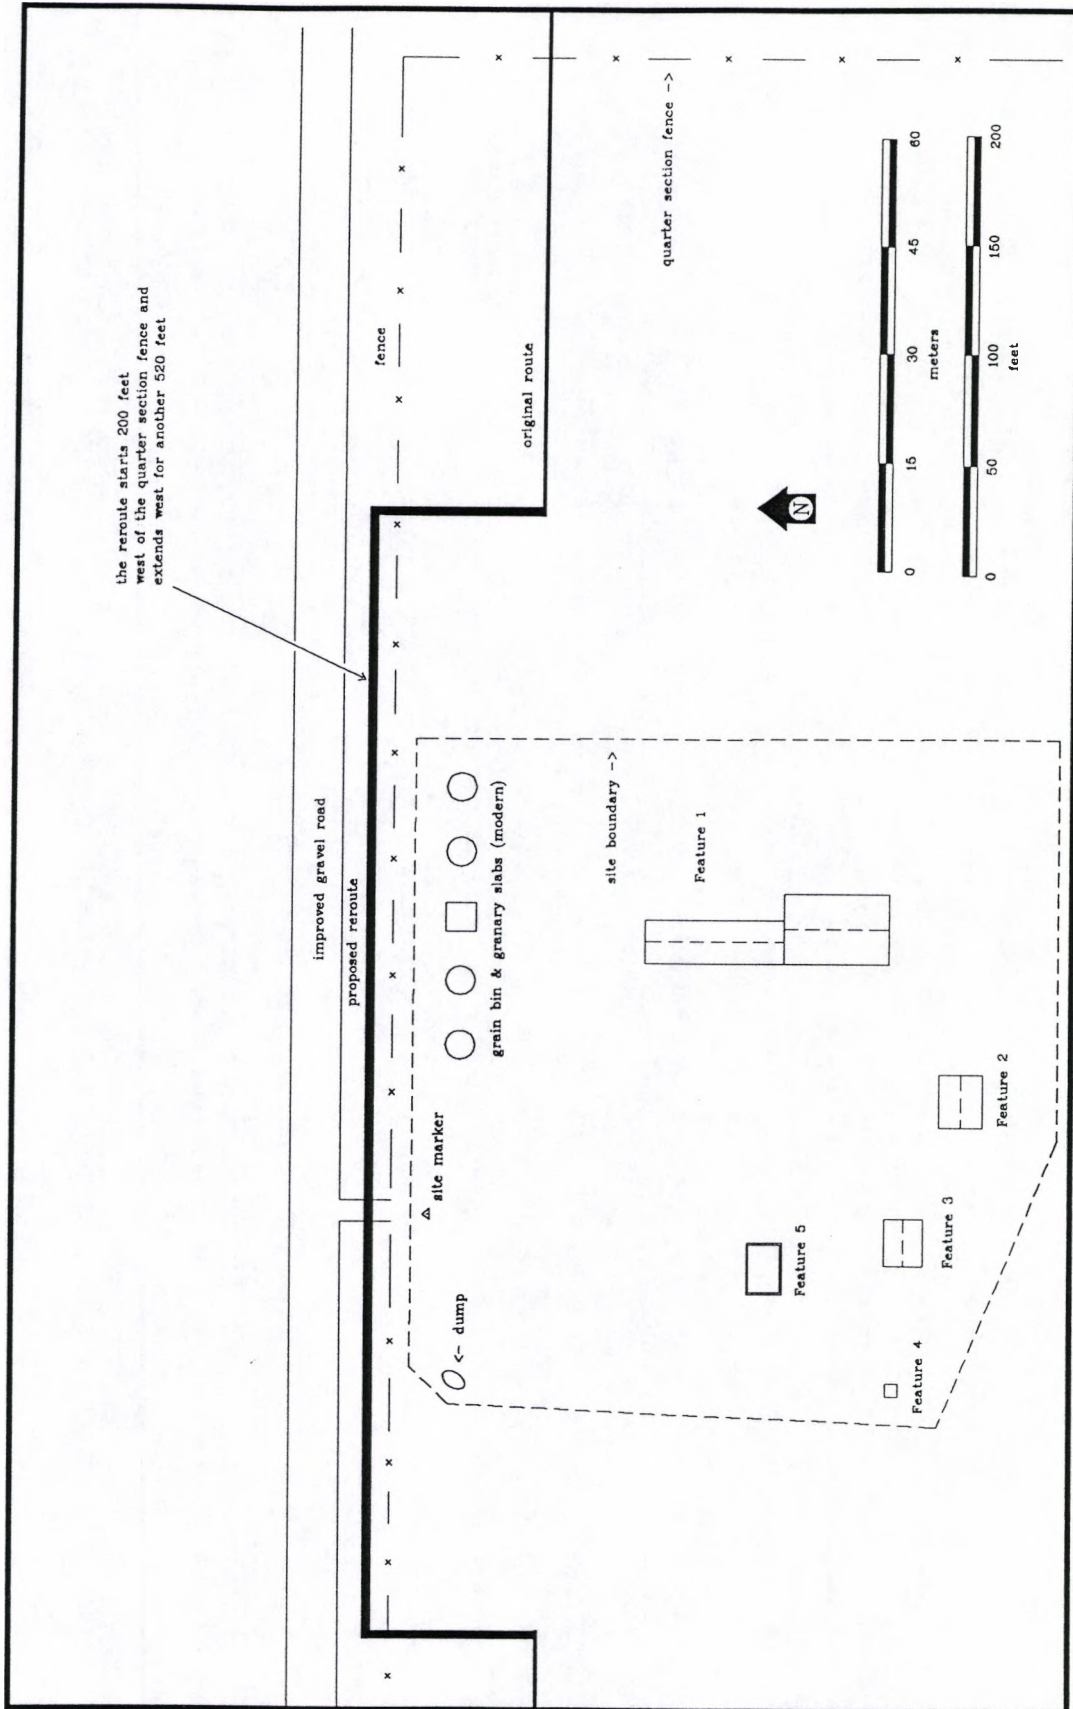

DESCRIPTION Three standing buildings, a windmill, a poured concrete basement, a trash dump, and five recent granary foundations were recorded at this site. The site is abandoned.

Records on file at the McLean County Register of Deeds Office indicates that Alfred Svenson received a patent from the United States for land containing the site on May 5, 1904. Anna Kristina Johanson, Svenson's sister, inherited the property on February 21, 1921. Johanson sold the property to Geo. E. Swanson on November 30, 1925. Victor Leidholm purchased the land on January 14, 1926. The property is still in the Leidholm family.

SUMMARY OF SITE FEATURES AND EVALUATION OF SIGNIFICANCE Feature 1 is a large garage and shop area. Feature 2 is a two stall garage. Feature 3 is a house. Feature 4 is a windmill (see also, Archeological and Historical Site Form). None of the buildings or the windmill are in use.

The features on this site are unusual for a farmstead. In particular, there is evidence for at least two houses (Feature 2 and archeological Feature 5) and no evidence of a barn. Rather than a farmstead, this site may be the remains of some type of small rural community. This is not, however, indicated by the deed information.

This site will be avoided by the proposed telecommunications project. As a result, the significance of the site was not fully evaluated. The individual buildings do not appear to be architecturally significant.
