Window Appear to have been double hung

Dating Method(s): History of McLean County

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
- Contributes to a potential district
- No nomination potential
- Will not contribute to a district
- Potential district—feature would be a contributing element if other properties constitute a district
- Thematic nomination potential
- Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

1. Feature Description, Integrity, Eligibility:

This feature is a one-room school building. It is situated in the SE corner of an intersection. I could not see what the foundation is made of as the grass and weeds were very high and I did not get close. I estimated this school building to be approximately 12 feet wide by 20 to 24 feet long. The building is covered with wood lap siding and the paint is in very poor shape. The east end of the building has two windows, they appear to be double hung. Most of the glass is missing from these windows. There are 4 windows on the south side, again double hung, and most of the glass is intact in these windows, three appear to be covered from the inside. There is one small window on the north side, looks like it might not be original. Perhaps it was installed to give some light to the entry area. The chimney is of modern looking brick. The shingles are wooden shakes and appear to be in pretty good shape with a few areas that have metal covering where the shakes fell off. The entrance to the school is on the west side and the lack of paint around the door leads me to believe there might have been a small porch on the building at some time. Also on the west end of the building is evidence of electricity. I spoke with a former student and he told me it was updated inside with new sheet rock and a lowered ceiling. The community used it for township meetings, card parties and other group meetings.

Complete one Page 4 for the entire site.

2. Owner's Contact Information:

Wanda Johnson
Norman Johnson – Wanda's son
243 14 Ave NW
Turtle Lake ND 58575

3. Access (to rural areas):

Highway 200, east of Turtle Lake to County Road 29. From the west, turn right and go south 3 miles. The school will be on the east side of the road.

4. Site Area (ft²):

5. Site Description:

There is a farm to the northeast, perhaps a quarter of a mile, another farm site to the northwest. There is water to the southeast and the land is slightly rolling farmland in all directions.
