NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature DataField Code Conkling School #1SITS# 32 ML**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

This feature is a simple prairie school that has been moved to a farm site and used for storage of grain and/or other. Roofing is shakes and the siding is 6 inch lap lumber. 6 inch boards trim the corners and 8 inch boards finish the building just under the roofline. The roof is missing some of the shakes and there are a couple holes as well as patched areas. A small pipe at the west end of the roof, perhaps a heater of some sort. There is a metal cap piece running the length of the peak of the roof. On the west end there is boarded up opening, maybe access to store grain. On the east end there is small window opening, no glass left. This building originally had three windows on the north side that mirrored the windows on the south side. The building was painted barn red at some point.

The school measures 32 feet east to west and 22 feet north to south. The door in the west end of the building is wood but probably not original.

The blackboard used to be on the east wall and there was a slate board on the wall to the right of the door, as you look at that door from inside the school. The school was moved to this farm site from the northwest corner of Section 15. When the school was at the original location there was a small building connected to the end of the school (the door used to face north) and this was used as a teacherage. The students came through a door into a small vestibule between the teacherage and the school before making a left hand turn to go into the main body of the school. There were no separate rooms for coats and etc, they had hooks on the wall to the right of the door with a shelf above the hooks.

Conkling School #1 closed in 1956.

Complete one Page 4 for the entire site.

2. Owner's Contact Information:

Yunker Family Trust
Doug Yunker
PO Box 58
Washburn ND 58577

3. Access (to rural areas):

At Washburn, just south of Highway 93 at the junction with Alternate 200. Go west on County Road 17, past the Lewis and Clark Interpretive Center, 6 1/2 miles. Turn left on 33rd Ave SW and drive 1/2 miles to driveway on your left. Follow the driveway into the farm yard, the school sits to the east of the house.

4. Site Area (ft²): _____

5. Description of **SETTING**:

The building sits at the east edge of a farm site, buildings to the west and southwest. You can see the Missouri River to the southwest. Directly east is a farm field and there are trees to the north.
