**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code Park Township School #1SITS# 32 ML**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

This feature is what remains of a one room school. The building was moved to the farm for storage and for use as a shop. An upper level and north room were added at a later date.

The school has asphalt shingles on the roof, 6 inch lap siding with 6 inch boards trimming the corners. There is chimney in the northwest corner of the building but I do not think it is original to the school. The school building was moved from a location 1/2 miles east. Originally located near the highway in Section 14. Two double hung windows on the east side and two newer windows on the west.

The interior was mostly gutted. There is evidence of lath and plaster on the ceiling. Most of the ceiling had fallen in. On the south side of the building are two garage doors, installed at some point to give access for large equipment. There is electricity in the building today.

Park Township School closed in 1956.
