1. Feature Description, Integrity, Eligibility:

This feature is a small one room prairie school moved to its current location and placed on a poured concrete foundation. The gable roof is finished with asphalt shingles. There is a red and yellow brick chimney at the north end of the roof peak. The soffits are closed.

The siding is verticle metal sheeting. The south side has concrete steps leading up to a newer solid core locked door. On the east side they installed a side sliding door for easier access. The metal siding was put on the building right over the windows. I am told the interior is mostly unchanged with one blackboard and tongue and groove hardwood. No information on the walls and ceiling. There is a coat room inside the entry door and that remains unchanged. It was wired for electricity.

I learned that is it used for storage for the camp.

4. Description of Access and Site Setting:

This building is located among buildings used for a religious camp. There is a camp building to the south, sleep cabins to the west, trees to the east and north. It is right on the Missouri River at the east edge of Washburn, ND. To access this school you turn off Hwy 83 onto Main Ave (first exit from the south). Follow Main Ave to 15th St and turn left and follow the road to a juncton. Turn left at First Ave and go to a locked gate that is the entrance to the camp. You would need to get permission to go onto the ground.
