**PAGE 3—Feature Data**Field Code North Central Trnsprt SchoolSITS# 32 MO**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a poured concrete foundation. This school is located at a trucking transport business and is used for storage. I have not been able to find out if it was moved to this location or if the business grew up around the school. The roof of the school and the entry are covered with wood shakes with metal capping. The chimney is gone and metal sheeting covers the hole. The soffits are closed. The building measures 16 feet east to west and 24 feet north to south with the entry measuring 8 feet east to west by 5 feet north to south.

A wide trim board starts the siding at both of the peak ends of the school. The remaining siding is 6 inch lap with 4 inch corner trim. There is a 2 panel wood door that opens to the entry. There is a small, wood door on the north wall of the school, likely added at a later date. The walls and ceiling inside the entry are covered with beadboard. There is wallboard on the walls and the ceiling in the main body of the school. The floor is tongue and groove hardwood. No evidence of a blackboard remains. The windows are double hung and are either shuttered or boarded up. Glass remains in the windows. There is no wainscot and also no electricity.

**3. Access (to rural areas):**

It isn't very rural as it is just west of Mandan on the road that would be Main in town. The address is Co Rd 139 and it is also called Old Highway 10. It is on the north side of the road as you go west out of Mandan, perhaps 3 or so miles.

**4. Site Area (ft<sup>2</sup>):** \_\_\_\_\_**5. Description of *SETTING*:**

The school is in a trucking yard with buildings to the southeast as well as west. There are a number of vehicles in the yard. There are trees beyond the yard and the Heart River is to the north. This area lies in the Heart River valley.
