PAGE 3 – Feature DataField Code Laubner SchoolSITS# 32 M

Complete one Page 3 for each architectural feature at the site.

1. Feature Description, Integrity, Eligibility:

The feature is a one room prairie school on a concrete foundation. The gable roof has wood shakes with some metal capping. The chimney hole has been covered. The soffits are open.

A rake board begins the siding at each peak end continuing with 6 inch wood lap and 6 inch wood corner trim. Some of the siding has begun to fall off. There was a shed/entry at the south end of the building at one time, it is now a pile of lumber. There is a 4 panel, broken wood door on the south side. On the east side the siding shows places where window openings were filled in. On the west side there are three window openings, two covered. The north side had two window openings with some framing left. All the glass is gone. Inside a stove pipe hole goes into what remains of the chimney. The walls in the building are covered with a mixture of beadboard and wood planking. The ceiling is covered with beadboard. In the middle of the school, running east to west, there is a half wall divider and the floor is covered with corn cobs. Obviously in later life this school served as a granary. There is no evidence of electricity and no blackboards remain.

2. Owner's Contact Information:

PAGE 4 – Site DescriptionField Code Laubner SchoolSITS# 32 M3. Site Area (ft²):

4. Description of Access and Site Setting:

This school building is a bit off the beaten path. Traveling south on hwy 1806, south of Mandan, find Co Rd 81. Turn right onto Co Rd 81 and travel about 1 mile, the road will curve to the south and as you get past the curve you will see a minimum maintenance road on your right, not signed but mapping will show Co Rd 2 (19th Ave). Turn right and follow the road for about a mile or so, you will see the school of the your left or west and it is about 1/4 mile to the west on a trail. The area is hilly with pasture and farm fields.

5. Summary of ALL Site Features and Evaluation of Significance:
