Complete one Page 2 for *each* architectural feature at the site.

Architectural Feature # 1

Construction Date _____

Feature Date 1915-1930

Structural System Wood Frame

Original Owner's Ethnicity _____

Feature Type 9 - School; Church school

Context Education

Primary Exterior Metal, Horizontal Siding

Secondary Exterior _____

Condition Excellent

Plan Shape Rectangular

Style Other Style

Architect/Builder _____

Foundation Poured Concrete Stories 1

Roof/Cornice Gable

Window Newer, fixed pane

Dating Method(s) Estimate

Miscellaneous Information _____

Feature Preservation Recommendation(s) (Check all that apply):

Individual nomination

Contributes to a potential district

No nomination potential

Will not contribute to a district

Potential district—feature would be a contributing element if other properties constitute a district

Thematic nomination potential

Component of a historic site or landscape

Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, and spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility

Historical associations require further investigation

NDCRS ARCHITECTURAL FORM
PAGE 3 – Feature Data**Field Code** Twin Valley Township Hall**SITS# 32** MZ**Complete one Page 3 for each architectural feature at the site.****1. Feature Description, Integrity, Eligibility:**

This feature is either a large one room school or a township hall sitting on a poured concrete foundation. I was unable to learn if it was used as a school. The roof is finished with new asphalt shingles. The soffits are closed. There is no evidence of a chimney.

The siding on the building is horizontal, metal sheeting. There are three, side by side, fixed pane windows on the east and west sides, one more on the north side. The entry has a side by side, sliding window on the east wall of the entry. There are two doors into the building, one at the entry on the south side and another at the north east corner of the building. There is a concrete platform leading to the south door and a ramp leading to the northeast door. The interior of the school has clear coated plywood walls. The sloped ceiling is finished with wallboard along the width as well as at the peak ends. Indicators of electricity are ceiling light fixtures as well as baseboard heat. The floor is tongue and groove hardwood. One small blackboard is located on the north wall.

2. Owner's Contact Information:

Kimberly and Daniel Neprash
3972 ND 1806
Watford City 58854
