Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
 - Contributes to a potential district
 - No nomination potential
 - Will not contribute to a district
 - Potential district—feature would be a contributing element if other properties constitute a district
 - Thematic nomination potential
 - Component of a historic site or landscape
- Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
- Historical associations require further investigation

NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature DataField Code Bergen #1SITS# 32 NE**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

This feature is a one room prairie school on concrete blocks. The school is located in the same yard as Sheyenne Lutheran church and the church cemetery. The building measures 24 1/2 feet east to west and 35 feet north to south.

The room of this building is covered with green colored metal sheeting over wood. There is a small, metal pipe coming out of the northwest corner of the roof, most likely for heat. The eaves are close and painted green. The siding is 6 inch wood lap with good paint. There is 4 inch corner trim, also painted green. On the south facing wall there is a 5 panel wood, locked door, reached by a concrete platform and three steps. To either side of the door are high windows, two pair of fixed pane glass. On the west side there is a bank of 7 windows, all shuttered. On the east side there is a covering over an opening than might have been a door.

There is electricity present in the school, evidenced by a light fixture above the door and wires at the north end of the building.

Did not see any of the interior.
