1. Feature Description, Integrity, Eligibility:

This feature is a one room school moved to the farm for storage. It is sitting on the ground, no foundation. The gable roof is covered with metal sheeting. The chimney is gone. The soffits are closed. The school measures 34 feet north to south and 20 feet east to west.

The siding begins with a rake board under the peak roofed ends. The remainder of the siding is 6 inch wood lap with 6 inch corner trim. There is a 5 panel wood door on the north wall giving entry to the school. Inside the door is an entry with 5 panel wood doors leading into the school proper located at both the east and west ends. Coat hooks are seen on the entry wall. A double hung window is located on each side of the entry door. A bank of 6 double hung windows, with glass intact, are located on the east wall. 4 of the six windows have storm windows. A plywood door was added on the south end of the school. Wallboard covers all walls and the ceiling with wainscot at the lower third of the walls. The floor is hardwood. Light fixtures indicate electricity was present at some point. There are blackboards on the west wall and the south wall either side of that south door.

4. Description of Access and Site Setting:

This school was moved to this farmsite. The farmsite is tucked into a lovely spot with trees all directions. The school is sitting to the south of the house with trees most sides. Access to this school is from Tolna. Go south of Tolna on County 23 - 5 miles, turn right and go two mile west on 24th St NE to 98th Ave NE. Turn left and go south on 98th Ave NE for 3 1/2 miles. The driveway is on the right and it meanders about 1/2 mile to the farm. You can't see the farm from the road.

5. Summary of ALL Site Features and Evaluation of Significance:
