## 1. Feature Description, Integrity, Eligibility:

The feature is a one room prairie school sitting on a poured concrete foundation. The school was moved to this location. The roof is covered with steel sheeting with steel ridge cap. There is a short, red brick chimney at the west end of the roof peak. There is also a new, metal pipe chimney running up the outside wall at the west end of the school.

The siding begins with a rake board under the peaks with the remaining siding being 4 inch wood lap with 4 inch wood corner trim. The entry is at the east side of the building. A 5 panel wood door with a transom window above it gives access to the school. The windows are two over two double hung, with glass. There are 3 windows on both the north and south sides. Two more similar windows are either side of the door at the east end. A light over the door at the east end of the school would indicate electricity at some point. There is a blackboard on the west wall of the school. Did not go inside this school to see walls and floor.

3. Site Area (ft<sup>2</sup>):

4. Description of Access and Site Setting:

The school sits on a farm yard with buldings to the east and west. There are buttes all directions and the Missouri River just to the east. From Price ND drive south on Hwy 1806 about 2 miles to a driveway on your left. Turn into the drive way and travel about 1/4 mile to the farm yard.
