Instructions to complete a digital version of this form: (1) Download a copy to your hard drive; (2) Open the saved blank copy; (3) Fill out the form; (4) Use the Save As command to rename the form appropriately and save; (5) *Print* and submit to SHSND.

NDCRS ARCHITECTURAL SITE FORM
PAGE 2—Feature Data

Field Code St. Joseph Township School

SITS# 32 PB

Complete one Page 2 for each architectural feature at the site.

Architectural Feature # 1

Construction Date Feature Type 9 Condition 6
Feature Date 2 Context 7 Plan Shape 5
Structural System 25 Primary Exterior 26 Style Other Style
Original Owner's Ethnicity Secondary Exterior Architect/Builder

Other Information:

Foundation Concrete Stories 1
Roof/Cornice Gable
Window Double hung, a lot of glass
Dating Method(s): Estimate

Feature Preservation Recommendation(s) (Check all that apply):

- Individual nomination
Contributes to a potential district
No nomination potential
Will not contribute to a district
Potential district—feature would be a contributing element if other properties constitute a district
Thematic nomination potential
Component of a historic site or landscape
Moved (specify all applicable choices)—a) relocation occurred within a historic period; b) recreates original site, orientation, landscape, & spatial relationships; c) compatible in context with neighboring structures; d) relocation has damaged eligibility
Historical associations require further investigation

**NDCRS ARCHITECTURAL SITE FORM
PAGE 3—Feature Data**Field Code St. Joseph Township SchoolSITS# 32 PB**Complete a Page 3 for each feature.****1. Feature Description, Integrity, Eligibility:**

The feature is a one room prairie school on a concrete foundation. The gable roof of the main body and the entry are covered with asphalt chingles. There is a concrete chimney on the north slope of the roof near the west end. A flag pole rises above the door at the west end. The soffits are closed.

There is a wide trim board located under the soffits at the peak ends of the school and entry. The remaining siding is 6 inch wood lap with 6 inch wood corner trim. The entry has two 5 panel wood doors on the west side. A two pane window is above the middle door which gives entry to the school from a two step concrete porch. A small fixed pane window is to the south side of the door with one more small window on the north side of the entry. There are two more 5 panel wood doors inside the school, one a door from the coatroom and the other entry to the school room. Above the school room door is a transom. The interior walls of the coatroom are covered with wallpaper. The school room walls have fiberboard panels with wainscot on the bottom 1/3. The ceiling is covered with 12 inch ceiling tiles. The floor is tongue and groove hardwood. There is a stage at the east end of the building. There is one covered window on the south wall. There are two sets of three large double hung, multipane windows on the north side with exterior decorative cornices. Much of the glass is missing. There are blackboards on the entire east wall and most of the south wall. There are desks in the school but birds have been making a mess of the building. Light fixtures suggest electricity.
