PAGE 3 – Feature DataField Code New German School #2SITS# 32 PIComplete one Page 3 for *each* architectural feature at the site.

1. Feature Description, Integrity, Eligibility:

The feature is a one room prairie school sitting on a poured concrete foundation. The gable roof of the school and entry are covered with wood shakes. There is a red brick chimney located at the north end of the peak of the roof, many bricks have fallen off. The soffits are closed. The school measures 24 feet north to south and 16 feet east to west.

The siding begins with a rake board under eaves at the peak ends of the school and entry. The remainder of the siding is 6 inch wood lap with 4 inch wood corner trim. A broken 5 panel door leads into the entry. All the interior walls of the entry have been stripped out. Above the entry door is a diamond shaped window opening without glass. There are three double hung window openings on both the east and west walls of the school with all the glass gone and some covered. The building was used for grain storage. The angled ceiling was covered with 4 x 8 ft. sections of ceiling tile, much of it falling into the school. The walls are lathe and plaster and much of the plaster has fallen away. There is wainscot on all the walls in the school. No evidence of electricity. The floor is tongue and groove hardwood with holes and broken areas. There are no blackboards.

2. Owner's Contact Information:

4. Description of Access and Site Setting:

This building is located 10 miles north of Harvey on Hwy 3. Find 35th St NE and turn left (west) to drive two miles to see the school at the northwest corner of the intersection with 28th Ave NE. There is an abandoned farm site just to the west, a farm to the southwest and farm fields all directions.

5. Summary of ALL Site Features and Evaluation of Significance:
