1. Feature Description, Integrity, Eligibility:

The feature is a one room prairie school on a foundation of poured concrete. The school was moved the current location for use as storage/shop today. The roof is finished with metal sheeting and the chimney hole was closed. The soffits are closed. The building measures 27 feet east to west and 16 feet north to south.

The school was recently sided with metal sheeting. Some of the original window openings were covered and there are new windows. A solid core door opens to a coatroom area on the north side. The walls here are lathe and plaster and there is wainscot. There is one small window on the north wal of the entry. Two 4 panel wood doors, one left and the other right, lead into the main room of the school. There are transom windows above both with glass that was painted over. The floor throughout is tongue and groove hard wood. Inside the school room the window openings are either boarded up or filled in with room for the new windows. The walls in the school are covered with wallboard. The ceiling is pressed tin with a decorative slope near the top of the wall. The east wall has an overhead garage door. There is wainscot in the school. Electricity is present today. A bit of blackboard is in the southeast corner from the overhead door to the corner and around to the first window.
